

The following are profiles of areas in Prince George's (PG) County surrounding the University of Maryland, College Park. Included is a brief description of each area, along with its transportation options, benefits, and crime statistics. The crime stats show the number of assaults, burglaries, robberies, and thefts in each city between January and December 2012. They can also be found online at www.crimereports.com and also at www.co.pg.md.us/Government/PublicSafety/Police/agree_disagree.asp. This first website provides crime mapping for any address, city, or zip code in the United States and the second provides crime mapping for any address in Prince George's County. An assault is an unlawful threat or attempt to do bodily injury to another. A burglary is characterized as entering a building or other premises with the intent to commit theft. Robbery is the unlawful taking of the property of another by the use of violence or intimidation. Theft is stealing or larceny.

COLLEGE PARK (District I of PG County: 301-699-2630)

College Park is the downtown college area for the University of Maryland, College Park. It is the busiest area and contains the largest percentage of students who live off campus. Located within 1-10 minutes walking distance from campus and the downtown area, this is the prime choice for students. The area is 75% renter occupied and home to fraternity and sorority houses. However, due to the large percentage of college student residents, College Park is prone to typical problems associated with college towns, such as noise complaints, vandalism and littering.

WEST GREENBELT (District I of PG County: 301-699-2630) and EAST GREENBELT (District II of PG County: 301-390-2100)

Greenbelt is one of the most historic communities in the College Park area. Home to many inner courtyards, townhouses, garden-style apartments, and private developments, Greenbelt offers the most diverse options for housing in the area. Located 10-15 minutes from campus, Greenbelt is not the closest neighborhood for college students, resulting in a lower number of student inhabitants.
